Great Neck, New York

Having been a muralist for several decades my commercial and residential work has mainly been about objects, whimsy, color, nostalgia and motion. I have often been inspired to create very detailed depictions of historical references as exterior and interior works. My work often includes exotic details, objects of reflection and portraiture. From ocean-friendly nautical themes to Southwest inspired prints and Asian motifs, I'm pleased to share my work in the form of soft home furnishings and other merchandise.
